Re: **Advanced Methods to Target and Eliminate Unlawful Robocalls
CG Docket No. 17-59**

Dear Ms. Dortch:

On May 24, 2018, Drew Morin and I spoke by telephone with Eric Burger, John B. Adams, Kenneth Carlberg, Heather Hendrickson, Joseph Calascione, Sherwin Siy, Jerusha Burnett, and David Kahn regarding T-Mobile's plans for implementation of SHAKEN/STIR.

We described T-Mobile's Scam ID and Scam Block solutions rolled out in March of 2017 to address the growing problem of fraudulent and unwanted calls in advance support of the recommendations of the work done by the Robocalling Strike Force. We believe these solutions are the best in the business, and our customers love them. Our primary focus will continue to be our customers, and with them in mind, we plan to commercially launch our STIR/SHAKEN network solution prior to the end of 2018. Also, we expect that by the end of 2019, all handset specifications will include the requirements necessary to support display of the STIR/SHAKEN verification result.

In accordance with section 1.1206(b)(2) of the Commission's rules, I am filing an electronic copy of this letter in the above docket.

Sincerely,

/s

Indra Sehdev Chalk
Principal Corporate Counsel
